The Neteraat will return

My friend, Pa Neteraat The **Deities**" will return again, as nature prepares the planet for them. In fact, you see things changing all over. Right now, they are returning ancient teachings of ancient Tama-Re "**Egypt**", the ancient language of Tama-Re "**Egypt**". I Atum-Re, give this to you, and through them you shall see again. You will overstand again who you were and are; you will see. They are returning again upon this Ta "**Earth**". Nature is taking control, and no one's "god" can save them or their prophet, Messiah, Mahdi's, churches, mosques, synagogues or temples. The old ways have returned.

They will retrace their steps

Pa Neteraat The **Deities**", who came down among the people long ago, in ancient Tama-Re "**Egypt**" were not different, but were very wise, healthy, and they had a strange look in their eye. They said, in the time of the next sun cycle, new people will emerge called Nuwaupians, where the sun appears to set in the west. They will retrace their steps to find what

was left by the side of the Nile long ago. Their steps will take them to the Hierophant Atum-Re, who they will ask to guide them on their journey. He will guide them for 30 years; then open the door to the secret unto them, but many of the followers will have fallen asleep, again turn from him and conform. The others will awaken to this new time with much to offer. Some of the followers will be silent out of fear. But most of the followers will be silent because, no one will ask anything of them, because they will have all the answers.

Nuwaupu

The World of the Tama-Reye "Egipitian" spiritual and otherwise, is not to be overstood by assuming that it can be described easily in the English language, and in religious terms. What we now think of as spirituality was not a religion in the commonly accepted definition of the word. It was our way of life, which is to say that it permeated our lives to such an extent as to be inseparable from everyday living. *Nuwaupu* was and is not a supreme being, but rather a way of referring to the cosmic, known power existing everywhere in nature, as Pa Temt-ta "The All".

When It Began

In the beginning, we were told by Pa Neteraat "The Supreme Beings" from the start, that the human beings are of two kinds. Those like Pa Neteraat *The Supreme beings** and those like Pa Tuta "The Human Beast", who is the destroyer and walks about on the planet Ta "Earth" like men, but yet they are beasts. All has been provided. All of the things we need, but they will make more. When Pa Neteraat "The Supreme beings" already gave us all that is necessary for life. We were instructed to carry love in our hearts for others, but Pa Tuta "The Human Beast" teaches hate. We were instructed to show a great respect for all the beings of this planet Ta "Earth", but they cause wars. We were shown that our well-being depends on the well being of the vegetable life, Pa Re "The Sun", Pa Mu "The Water", Pa Nefu "The Air" and that we are close relatives of Pa Neteraat *The Supreme beings*.

Old and Proven Ideas

The Truth does not belong to one religion. We need to act in accordance with the truth, but it does not belong to

any one religion. It is the mind, heart and soul of old and proven events through time remembered after time of discovering natural law, proven facts not beliefs or faith.

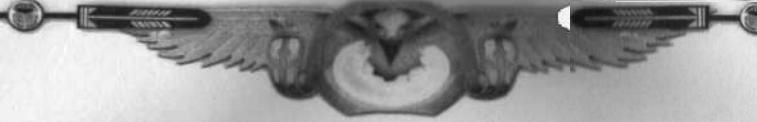

Spiritual parents told us...

We feel pain and anger that *The Human Beast* rushes toward development, the fabric of this planet has been raped, and what you call the biosphere, or ecosphere—but which we more simply call, *Mother Nature* or *Neter*—has been so neglected and hurt that our spiritual parents, or etheric parents, told us we have to do more than save what is left of our culture. We must help save the planet **Ta** “*Earth*”. We need to contribute to an overall change of mind to love, not hate, to gather not separate, so that human beings can begin to initiate strategies that will preserve and sustain the environment that all cultures and nations share and stop the destructive beast, man.

To walk in the

Tama-Reye “Egiptian” Way

Pa Neteraat “*The Supreme beings*”, look at our sepa-

ration. We know that in all creation, *only* the human family of Tama-Reye “*Egiptian*” has strayed from the sacred way. We grafted a human beast that we know. We are the ones who created him, we are the ones he divided and we are the ones who must come back together in our way of life to walk in the sacred Tama-Reye “*Egiptian*” Way. *Yaa Neteraat* “*Oh Supreme beings*”, *Sacred Ones*, *Re* “*Ra*” teach us love, compassion and honor, that we may heal the evil one and heal each other.

All Are Together

Mind of separation, mind of domination, these have birthed genocide of Nuwaupian people throughout the world: the invention of weaponry with the power to kill all people on the planet **Ta** “*Earth*”. In the Tamahu’s “*Caucasians*” teaching, such great sufferings are seen as necessary, for them to rule all others. They are the result of pride, the idea that one is better or more important than another. In reality, in the circle of right relationship, there is no above and no below, no in or out—all are together in the sacred all.

So it is in Everything

You have noticed that everything a Tama-Reye "Egipitian" does is in a triangle, circle or square. That is because the power of the world always works in symbols from the black dot, and everything tries to be rounded out and squared off. The sky appears round, it's not; and I have heard that **Pa Ta The Earth** appears round; like a ball; it is not. And so are all the stars, and they're not. The wind, in its greatest power, whirls. Birds make their nests in circles, not all, for theirs is the same way as ours. Even the seasons form a great circle in their changing; that's not true, and always come back again to where they were. This is not true. The Life of a man is a circle from childhood to childhood, and so it is a in everything where power moves. All these untruth's are believed, yet we know they are not true. It is all symbolism.

Honor and Respect

To honor and respect means to think of the land and the water and plants and animals who live here as having a

right, all equal and all the same. We are not the supreme and all-knowing beings, yet **we are** living at the top of the pinnacle of evolution. Yet we do, but in fact we are members of life as all living things, along with: **Pa Shajuraat "The Trees"**, **Hajuraat "Rocks"**, **Pa Mu "The Water"**, **Re "Sun"**, **Nefu "Air"** and **Haywunaat "Animals"** that each fulfil! their purpose in **Pa Temt-ta The All**. They perform their given task in **Pa Temt-ta The All**, as **Pa Temt-ta "The All"**, and we do and are also.

Original Instructions

The original religion was natural law; acknowledge and respect nature. It was given to all people by the Creators, including the idea of respecting all things as part of the sacred all of life. We are the generation with the idea of respecting all things as part of the sacred all of life. We are the generation with the responsibility and option to choose the path with a future for our children. We must join hands with the rest of creation, and speak of common sense, responsibility and peace.

Ancient Predictions

The predictions of our ancestors of the **Tama-Reye "Egyptian"** have important meanings for the future of the planet Earth. Through generations, these predictions have been maintained courageously, methodically, and accurately. Now we are in the year 2,000 a critical stage of our spiritual, physical moral and technological development as a people. All life is precariously balanced. We must remember that all things on Ta "Earth" have a spirit and are intricately related. I'm in **Pa Temt-ta "The All"**, is a **Tama-Reye "Egyptian"** prediction of rebirth of the sacred teachings of **Tama-Re "Egipt"**, which has begun under **Atum-Re**. May we find, in the ancient wisdom of the **Tama-Reye "Egyptian"**, the spirit and courage to take the lead.

Spirit and Soul

Our Ancestors gave us many cultural laws in our way of life, which they had learned from their *ancestors*. These cultural laws were good for us. They told us to treat all nature as they treated us; that we should never be the first

to break the natural laws; that it was a disgrace to be disloyal to our **Tama-Reye "Egyptian"** family; that we should speak only the truth. We were taught not to believe, or have faith and that **Pa Neteraat "The Supreme beings"** see and hear everything, and that they never forget; that hereafter they will give every human being a spirit, but only their children will have a divine soul and a home with them.

The Real Law

Pa Temt-ta "The All", the grower of all life—the Creator, Maker and Fashioner—did not intend for humans to abuse one another. Therefore, this came when two governments promoted the abuse of human beings by other **Pa Tuta -aat "Human Beasts"** and ensured, no peace among people. **The Tamahu "Caucasian"** is **Pa Hotep Kasuraat "The Peace Breaker"**. Peace is the product of a loving family that strives to establish sound right reasoning and righteousness. Righteousness refers to the shared ideology of the people using their purest and most unselfish minds, and recognizing that all roots lead back to **Tama-Re "Egipt"**. All people have a right to the things they need to survive—even those who

do not or can not work. No people or beast has a right to deprive others of these things; food, clothing, shelter, protection or freedom.

Force

Human beings should use every effort to sit and council about, arbitrate, and negotiate their differences. Force should be restored *only* as a defense against the certain use of force, to stop a mistreatment of the human beings by *The Human Beast*.

Attention Please

Central to *Atum-Re's* message, to all people spirituality, is the overstanding that *Pa Neteraat "The Supreme beings"* live in all things, in all realms of creation — including earthly life. Ancient *Tama-Reueaat "Egíptians"* teachings call us to turn primary attention to the sacred *Tama-Reye "Egíptian"* teachings on life, of which we are a part and with which we are so obviously entangled. This quality of attention~ paying attention to the whole — is called among my people, holiness. Attention please.

The Colors

Whenever, in the course of the daily hunt, light by the yellow sun, the red blooded hunter comes upon a scene that is *strikingly beautiful* or *sublime*— a cloud with the *rainbow's* glowing arch above the mountain; a blue *waterfall* in the heart of a green gorge; a vast area of grassy land tinged with the spots of pure brown *earth*— he pauses for an instant in the attitude of worship. He sees no need for setting apart one day in seven as a holy day, since to him all days are *Pa Neteraat The Deítie's* and is as beautiful as the next, only broken by the crash of pale white lightening and it too can be tamed and deemed a *benefit* to growth. Help us to grow, help us to help him see his place in all this.

Our Seed

In our way of life with every decision we make, we always keep in mind the children to come out of our seed. when we walk upon the *Ta "Earth"* we always plant our feet carefully, because we know that the *races* of future generations are looking up at us from beneath the ground, we can never forget them.

The Female

We are a matriarchal society, even our language honors the female. It is a female language because the female was first. When we gather the men together on the outside of the circle, the inside of the circle is to honor the female. When you gather for the ceremonial drums of your culture, honor mother nature, and give her respect and joy for all the things she gives us to stay alive; Like birth and our first meal from her own breast.

Giving Thanks

when you arise in the morning give thanks for the morning sun, *Atum Re*, and at noon look up and give thanks for the noon sun, *Atun-Re*, and the joy of living. when the sun appears to set, look westward for the evening sun, *Amun-Re*, and give thanks. If you see no reason for giving thanks, the fault lies in yourself. You are spiritually and physically blind.

You Will Know Each Other

If you talk to the animals and love them, they will talk with you. So, also talk to other people and they will talk to you. Smile at other people, and they will smile at you, and you will know each other. If you do not talk or smile at others, you will not know them and they will not know you; and what you do not know, you will fear. what one fears, one tries to destroy.

Experience Everything

To be an Alchemist, you have to experience the chemical side of everything. How can you help cure or heal? To be a good Alchemist, you've got to be wise. You've got to be lower than a worm and higher than a bird. You must know their nature. You must know what they eat, what cures them in nature, and which of them are close to you. In nature, you must become a part of the cure.

Giving is Kind,

Getting is Necessary

It was our way that the love of possessions is a weak-

ness to overcome. This was taught to us so that we would not want, and need to get a better life. Its appeal is to the material part that gives us power of our own; and if allowed its way, it will in time disturb ones' spiritual balance, but raise your soul and inner being to make the real you, a Neter "Supreme Being". Therefore, children must learn that beauty is more than skin deep. They are taught to give what they prize most, as *the human beast* just takes and takes, that they may taste the happiness of giving, but never getting.

We Do Want Riches

Look at me—I am poor and naked, but that's because I accept it. He is in the image of "God" and not me; I am the boss of my family, who all have nothing to offer but each other. We do not want riches, but we do want to train our children right; not to think poverty is noble while all others teach their children to get rich and have power. Riches would do us good. We can't take them with us to the other world, but all we do with riches is for others. We would never be forgotten like the great A'aferti-aat "Pharaohs". We do not want riches, we need riches for self rule. We want peace and love that comes with self rule.

Give Back

The most important thing to remember about the Ancient *Egyptian Order* is that it is a way of life for humans who want to give back to *the Creators*, some of the energy that they are always giving us. Pa Ta "The Earth" constantly gives us a surface on which to stand, and to sit. Re "Ra" sun warms us, and the moon protects us at night. The element of Ta "Earth" gives us a place to grow food and the ability to make homes. The water keeps us alive and clean. The fire warms our homes and cooks our food. The air gives us the sacred breath of life. Through the Ancient *Egyptian Order*, we learn how to give back.

Building character

Silence is the key to absolute balance of body, mind and spirit. Listen for the inner voice. The woman who preserves her selfhood is ever calm and unshaken by the storms of existence. If you ask her what is silence? She will answer: "It is great mystery". The Holy Silence is her voice. If you ask: "What are the fruits of silence?" She will say: "They are

self-control, true courage or endurance, patience, dignity and reverence. Stop praying to "god" and listen to what "god" has said."

Skin Color DOGS Not Matter

The color of the skin makes no difference. What is good and just for one is good and just for the other, and the great Neteraat "*Supreme Beings*" made all men brothers. I have brown skin, but my grandfather was a black man. what does it matter? It is not the color of my skin that makes me good or bad. Will you teach this fact to white people please?

A Common Root

We are all flowers in the Great Spirit's garden. We share a common root and the root is Tama-Re "*Egypt*". The garden is beautiful because it has different colors in it, and those colors represent different traditions and cultural backgrounds.

One Heart, One Mind

We must stand together, the Nuwaupians, as we are, in the interest of peace. We must abolish nuclear and conventional weapons of war. We must raise leaders of peace. We must unite the religions of the world as a spiritual force strong enough to prevail in peace. We human beings are a spiritual energy that is thousands of times stronger than nuclear energy. Our energy is the combined will of all people with the spirit of the natural world, to be of one body, one heart, and one mind for peace, Nuwaupu—Sound Right Reasoning.

What Is life!

What is life? It is the flash of a firefly beetle in the night. It is the breath of a bull in the wind. It is the little shadow, which runs across the grass and loses itself in the appearance of the setting sun, Amun-Re.

All Religions

After all of the religions have been preached and expounded, or have been revealed by brilliant scholars as

untrue, or have been written in fine books and embellished in fine language with finer covers, containing no facts; all man is still confronted with the truth of who and what he is, temporarily alive. Not one of them has come back to confirm their religious beliefs. Wake up before its too late!

We Think

Love is something you and I think we need. We must have it, because our spirit feeds upon it; **we think**. We must have it because without it we become weak and faint; **we think**. Without love our self-esteem weakens; **we think**. Without it, courage fails. Without love we can no longer look confidently at the world; **we think**. We turn inward and begin to feed upon our own personalities, and little by little we destroy it ourselves; **we think**. With it, we are creative; **we think**. With it, we march tirelessly, but did we ever think that to love anything or person other than **Pa Neteraat "The Supreme Beings"** is a sin? **Think**. We think with it, and with it alone, we are able to sacrifice for others, **we think**.

The Web of Life

People who are living on this planet need to break with the small concept of their own liberation, and begin to see liberation as something that needs to be extended to the whole of the nature. What is needed is the liberation of all things that support life- **Pa Nefu "The Air"**, **Pa Mu-aat "The Waters"**, **Pa Shajuraat "The Trees"** - - all the things which support life, comes before you.

Our Final Chance

We are now living in the 30th year and final world of the **Tamahu "Caucasian's"**. We are at a most critical time in human destiny. It is a crossroad at which the outcome of our actions will decide the fate of all life on **Ta "Earth"**. This is the last world, we are not going anywhere from here. If we destroy this, as they did the last world, this highest world, which will be like heaven, unlike the last world which was heaven to him, and hell to us, we will be given no other chances. **The Ancient Egyptian Order, A.E.O. is our last chance**. Let us consider this matter seriously, so that this world is not destroyed, so that we can continue to live and save this land and life, our heaven, which will be hell to him.

The Connection

In these times of turmoil, every human being is being asked to remember their connection to the Creators and to the Ta "Earth", making those connections strong. Each person's connection to the great Tama-Reye "Egyptian" Mystery, Pa Ta "The Earth" to the spirits of the ancestors and to their spiritual essences holds the key to finding the balance. Human beings tend to forget that no man-made religion is the source; the only source is the great Tama-Reye "Egyptian" Mystery, the Creators. Every human being must answer to that source, Pa Temt-ta "The All", not to another human being, Prophet, Messiah, Mahdi, Guru, but only to the Source.

Survival

Brothers and sisters, we bring to your thought and minds that right-minded human beings seek to promote above all else the life of all things. We direct to your minds that peace is not merely the absence of war, but the constant effort to maintain harmonious existence between all things from individual to individual, and between humans and the other beings of this planet. We point out to you that a spiritual consciousness is that path to the survival of all life.
